

Event 2: 4KV Polymer Change Out

Scenario: Replace both Polymer on D.D.E. The crew must climb up and tag the neutral out. Climb up and cover the center phase. Cover the cross-arm with the blanket provided. Use a hot hoist to take the slack out of the phase and change both polymers out of the same phase. Remove cover and put neutral back to normal. Time stops when the last climber's food hits the ground.

Deductions:

2- point deduction

- Breaking minimum approach distance
- Dropping tools or equipment

10- point deduction

- Not using all the covers provided
- Not using the hot hoist provided
- Not tagging the neutral out
- Lack of P.P.E.

See the score sheet for additional infractions. **Competitors must wear 100% fall protection.**
